

ATELIER DE FRANCE

French General 20th Anniversary 1997-2017

This collection celebrates the 20th Anniversary of French General. Twenty years ago, I started going to France to collect the antique fabrics that made my heart sing. The faded red florals, old tickings and small prints all seemed to blend together perfectly. But it wasn't until Cheryl, Lissa and Joanna knocked on the front door of French General ten years ago that I realized my treasures would make beautiful quilting fabrics! For Atelier de France, I chose some of my most favorite prints and wovens, and colored them in the classic French General palette of old reds, pinks, and neutrals.
